

GMF Extends Airbus Training Center License

Jakarta, July 3, 2018 – PT Garuda Maintenance Facility AeroAsia Tbk., (GMF) signed an agreement with giant aircraft manufacture Airbus. The cooperation was conducted for the Airbus Training Center for 5 years. The signing of this cooperation is a renewal of the cooperation that has been running for 5 years starting from 2013. Witnessed by GMF President & CEO, Iwan Joeniarto, this cooperation agreement was signed by Director of Human Capital & Corporate Affairs GMF, Asep Kurnia and Bruno Bousquet, Airbus Head of Customer Services, Asia Pacific. This cooperation creates GMF as the center of Airbus' aircraft maintenance training for Airbus A320 CEO and A320 NEO type. Besides, GMF and Airbus also agreed to add training coverage for the Engine Ground Run Up Airbus A320 and A330 as well as Extended-range Twin-engine Operational Performance Standards (ETOPS) Training.

Iwan Joeniarto expressed his gratitude to Airbus for the trust that given to GMF. "Airbus' reliance in GMF will be kept as good as possible. We will maximize the Airbus Training Center as one of the revenue generators for GMF," Iwan said. On the same occasion, Bousquet expressed his appreciation to GMF who has been running the Airbus Training Center well for 5 years. "This agreement reinforces the highly-successful long-term partnership between Airbus and GMF. We have received good feedback about the high quality of the GMF instructors and their training courses, and this will allow more Airbus customers to benefit from courses closer to their home."

On the same occasion, Iwan said with this collaboration, will help increase the brand image of GMF as a trusted aircraft maintenance provider that has Airbus Training Center facility where a similar training center can only be found in 8 countries around the world. "GMF applies the same subject matter, infrastructure and certificates to Airbus training facilities in Toulouse, France. Currently we have one class and in the future, we will build another class to maximize the capacity of this training center," Iwan said. He added that GMF currently has 9 Airbus licensed instructors for Airbus A320 and A330 aircraft maintenance training.
